How to Weather the Storm

Be Calm, Be Prepared, Be Safe

Tel: 727-446-5721

Be Calm

- Monitor weather alerts.
- Check your disaster supplies.
- Check outside your property for items that may become projectiles (outdoor furniture/décor, loose roof shingles/tiles, etc.) secure or bring indoors. Prune trees if necessary.
- Close windows, doors & hurricane shutters. If you do not have shutters, board up windows/doors with plywood.
- Turn fridge/freezer to coldest setting and keep closed as much as possible to prevent spoilage if there's a power outage.
- Turn off propane tanks & unplug small appliances/electronics.
- Fill your car's gas tank.
- Create/practice a household evacuation plan.
- Find out if you're located in an evacuation zone & obtain a copy of your community's hazard guide.
- Plan routes to local shelters and make arrangements for pets and family members with medical conditions.
- Fill up bathtubs and sinks with drinkable water.
- Create a home inventory for insurance purposes including description, photos or video, model #s, serial #s for large appliances, and if possible, date/place/cost of purchase with receipts.
- Contact your insurance agent for claim filing instructions.

Hurricane Watch: Hurricane conditions are a threat within 48 hours. Be ready to act if a warning is issued.

Be Safe

After the Storm has passed,

- Continue to monitor weather alerts.
- If evacuated, return home only when officials say it is safe.
- Drive only when necessary; avoid flooded areas.
- Keep away from loose or dangling power lines and report them immediately to the power company.
- Stay out of any building that has water around it.
- Use flashlights in the dark. Do NOT use candles.
- Avoid drinking or preparing food with tap water until you're sure it's not contaminated.
- Check refrigerated food for spoilage; throw it away if you're unsure.
- Inspect your home for damage. If safety and common sense allows, try to prevent further property damage by making temporary repairs.
- If applicable, remove wet carpet to prevent mold. Make sure to provide at least a 2ft x 2ft sample of the carpet and pad to your claim adjuster.
- Separate and dry salvageable items such as clothing and linens.
- Make a detailed list of all damaged or lost property. Keep floor covering samples, records, photographs, or video of damaged articles removed, and costs incurred during initial clean-up activities. Request and copy original receipts for all purchases or services needed to make temporary or emergency repairs. Save receipts for any additional expenses.
- Don't throw anything away before an adjuster has seen it; if it must be thrown away, take a photo and a sample if possible.
- For flood losses, photograph the elevation of the exterior and each room on the interior. Mark water levels reached in each room.
- Save copies of receipts and give the originals to your insurance adjuster.
